

LIGHT SOURCE – low power

HL2010-001 (MES on base w/wires)

DESCRIPTION:

IEC manufactures several low power light sources for general basic electricity experiments. These are low cost and simple lamp holders with the lamp exposed.

See also HL2011-001 for a higher quality and larger MES lamp base with 4mm sockets for connection. This item is the spare part from the IEC Electricity Kit (EM1763-001). See also HL2012-001 and HL2012-101 for the types of low power light source holders where the lamps are inside a simple vial housing.

HL2010-001 holds an MES lamp on a small plastic base with 2x wires permanently connected to the base.

HL2010-001 (simple MES holder)

Physical size: 40x25mm DxL

Weight: 0.03 kg
