

METALS KIT - identification

Cat: LB2100-001 set/8, metals identification kit

DESCRIPTION:

The IEC **Metals Kit** is a small pack of 8 different metals in the form of rods 3mm diameter x 50mm long. Each rod is marked at one end with the initial of its name. The metals names are marked on the cardboard pack.

The metals are: Brass, Copper, Lead, Aluminium, Iron, Nickel, Tin and Titanium.

The convenient 'flip-top' box allows the metals to be compared one to the others and the sample bars can be handled to feel the difference in strengths and hardnesses.

LB2100-001 set of 8x metal rods

Physical size: 96x70x16mm LxWxTh

Weight: 0.03 kg
